26.645€

ABRACK AFZ

Acabado especial de madera más oscura con logotipo TECH DAS insertado.

Los materiales utilizados en su construcción son los mejores que ofrece el mercado: superficie sólida Krypton, madera Panzerholz, tornillería termoplástica elastomérica fabricada en Japón.

Las únicas piezas metálicas utilizadas son los tornillos que forman los puntos de desacoplamiento del rack, que son de Titanio.

La identidad icónica de excelencia que ha mantenido Artesania Audio, por la ausencia de estantes para apoyar la electrónica.

Este producto ha sido desarrollado para tener el mejor rendimiento posible en la mejor mesa giratoria jamás fabricada.

Se incluye caja de madera especial con estructura metálica sobre ruedas con sistema de colocación del rack en el lugar adecuado para facilitar la instalación, el peso total es:

Special darker wood finish with TECH DAS logo inserted.

The materials used in its construction are the best the market has to offer: Krypton solid surface, Panzerholz wood, elastomer thermoplastic screws made in Japan.

The only metal parts used are the screws that make up the decoupling points of the rack, which are made of Titanium.

The iconic identity of excellence that Artesania Audio has been maintained, by the absence of shelves to support the electronics.

This product has been developed to have the best performance possible on the best Turn Table ever made.

Special wooden box included with a metal structure on wheels with a system to put down the rack on the right place to make an easier installation, the total weight is:
